State Aid Boosted To Meet Claims In Full

Quad-City school districts last week received the first state aid checks since approval of a supplemental appropriation intended to assure a 100% claims payment.

They had been notified during the winter that state aid for 1960-61 would not be paid in full, due to exhausting of available funds. However, the Illinois General Assembly voted an additional \$5,000,000 for apportionment to schools and the bill was approved by Gov. Kerner on 100% payment.

The last four monthly warrants of the year are to be received by County Superintendent Wilbur R. L. Trimpe amounting to \$523,778, including \$164,957 for the Quad-City area—\$124,327 Granite City district, \$37,632 Madison and \$29,899 Venice. These are the amounts forwarded by Trimpe to the districts last week, he reported Friday.

Similar checks are to be sent for the next three months to close out the fiscal year with 100% payment.

The \$523,778 check includes \$163,158 in "make-up" funds, of which \$3069 was for the Quad Cities—\$3833 Granite City, \$1161 Madison and \$91 Venice.

Kelly-Hutchings Wedding At Madison Presbyterian

Miss Barbara Jane Hutchings, daughter of Mr. and Mrs. Paul Hutchings, 1618 Third street, Madison, became the bride of David H. Kelly, son of Mrs. Helen Kelly and the late Elmer L. Kelly, 1423 Third street, Saturday evening at seven o'clock. Rev. Howard L. Lucas officiated at the double ring ceremony at the First Presbyterian Church in Madison.

The very bouffant skirt, which billowed to a cascade waist, was richly enhanced with jeweled panels of lace and caught at the center back with large butterfly bustles which swept into a chapel train.

A many-tiered silk of French illusion was held to a princess crown of pearls and aurora borealis tear drops. The bride carried a bouquet of white carnations and lilies of the valley.

Miss Linda Taylor, maid of honor, and the bridesmaid Gladys Ridenour chose gowns of Japanese velvet, ballarina length, with fitted bodices and bell-shaped skirts with paneled backs and large flat bows. Miss Jacquelyn S. Wiesman,
Wm. A. Smith Wed Sunday

Miss Jacquelyn Sandra Wiesman and William Allen Smith were married Sunday evening at the Meadowbrook Country Club in St. Louis. Rabbi Joseph Nussim of Shaare Emetz Temple heard the vows of the couple at 6:30. The ceremony took place against a background of white and lavender spring flowers interspersed with woodvarden fern and lighted taper.

The bride, daughter of Dr. and Mrs. Irvin Wiesman, 1106 Twenty-seventh street, was given in marriage by her father. They were preceded down the aisle by Miss Nancy Fleishman of this city, maid of honor; Miss Laurie Steinger of St. Louis, and Miss Rhoda Simon of Alton, bridesmaids, and two junior maids, Misses Lauren Aronberg and Roberta Koslov.

Mr. Smith, a son of Mrs. Lewis E. Smith, 1106 Twenty-seventh street, was a graduate of the University of Illinois, Evanston, University City, and the late Mr. Smith, was attended by his uncle, Dr. Tenenbaum. His best man was the bride's brother, Melvin Wiesman, a student at the University of Missouri School of Law, Gary Wiesman, another brother of the bride and a student at Washington University, and Jeffrey Smith, the bridegroom's brother, served as groomsmen. The guests were seated by Martin Koslov and Ronald Tenenbaum of St. Louis, and Irving Feldman of New York, ushers.

The bride was attired in a gown of candlelight silk pea de soie. Floor-length, it was designed on princess lines. The bodice had a deep oval neckline and a bracelet length sleeve. Large floral medallions of imported Alencon lace exquisitely embroidered with iridescent seed pearls trimmed both the bodice and the bell-shaped skirt. A unique feature of the gown was a waist-length removable jacket from which swept a full cathedral train of peau de soie. Additional beaded lace medallions bordered the train. A three-tiered bouffant veil of matching candlelight illusion cascaded from a princess crown of lace encrusted with pearls and the bride carried a cascade bouquet of white orchids, moth orchids and stephanotis.

All of the attendants wore lavender dresses. The older girls were in silk chiffon with softly draped bodices and round necklines. The very full skirts were bordered at the hemlines with wide matching ribbon and bows in their hair held in place circular maline veils. The junior attendants wore silk organza, matching hair bows and miniature veils. Their bouquets were cressets of pink and orchid flowers.

The guests remained for a reception and dinner given by the bride and groom at the University of Illinois School of Education and Graduate School of Medical Technology, Mr. Smith received his education at Washington University and University College. He is a graduate of the University of Illinois.

The bride's grandparents are Mr. and Mrs. Meyer Koslov of St. Louis. Her paternal grandparents, who are deceased, were Mr. and Mrs. Sol Wiesman of this city. After a wedding trip to Acapulco, Mex., the newly-wedded pair will reside in Alton.

50 Attend Ladies Golfing Event

"Low Groes" was the event Thursday at a meeting of the Ladies Golf Association of Sun-Hills Country Club. The guests were in charge for the day and approximately 50 members were present.

The championship winner was Mrs. Alyne Fruit of Edwardsville. Others were A. Flight, Mrs. Florence Compton, Granite City; B. Flight, Mrs. Osie Southwick, Granite City; and C. Flight, Mrs. Margaret Sample of East Alton. Low net was won by Mrs. June Wall of Edwardsville.

IT TAKES KNOWLEDGE TO TREAT THE SICK

Despite great advances in medical knowledge, there are still some people who depend on old-fashioned self-treatments. Some let persons with no drug or medical training advise them what medicines to take.

When door-to-door peddlers or mail-order opportunists presume to tell you what to take when you are sick—be wise. In order to treat sickness a diagnosis of the cause is needed. No one but a physician has this knowledge.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people can trust us with their prescriptions. May we compound yours?

Bouquets of white gladioli, together with palms and ferns decorated the sanctuary which was lighted with burning candles in candelabra. White flowers and ribbon bows adorned alternate pews down the main aisle of the church.

The former Miss Heth, a daughter of Mr. and Mrs. George O. Heth Sr., 2324 Benton street, was given in marriage by her father. Preceding them down the aisle was a young girl in a white-capped dress, a maid of honor, Mrs. Janet Klenke, twin sister of the bride, two bridesmaids, Mrs. Patricia Bailey and Mrs. Sue Bryarly, a flower girl, Deborah Heath, niece of the bride, and William Heth, a nephew of the bride, ring bearer.

A princess style gown of lustrous white satin was worn by Sunday's bride. The fitted off-shoulder bodice had a tucked bertha and short sleeves. Worn over hoops, the skirt billowed into a long train and modestly fingertip nylon veils were held in place with a crown of sequins and the bride carried a crescent bouquet of white gladioli.

The matron of honor and bridesmaids were dressed alike in ice blue nylon over taffeta and carried bouquets of white gladioli. The bride's train was held up by clusters of tiny nylon roses and at the waist line encircled with cummerbunds, were larger roses

of self material. Net headbands matched the dresses and they carried colonial bouquets of carnations, white and pink for the matron of honor and white for the bridesmaids. All were tied with pink ribbon.

The little flower girl was similarly attired in white with a small colonial bouquet.

The bridegroom, a son of Mr. and Mrs. Walter O. Kosten of Collinsville, had his brother Donald Kosten, as best man, Robert Willoughby, George Hess, Charles Heth, the bride's brother, and Larry Kosten, a cousin of the bridegroom, served as groomsmen and ushers.

Mrs. Heth was in a pastel blue silk print sheath dress, while Mrs. Kosten, the bridegroom's mother, selected a light gray sheath dress complemented with white and gray striped jacket.

Both had white carnation corsages.

Preceding the service, a program of wedding music was furnished by Vicar Ronald Jackson, soloist, accompanied by Prof. Arlis Shlen of St. Louis, organist, and following the ceremony a reception was held at the Granite City Engineer Depot Officers Club.

The bride, a graduate of the Granite City high school, has been employed at the Engineer Depot. Mr. Kosten is a graduate of the Collinsville high school and Missouri School of Mines and Metallurgy. He has accepted a position with the DeLaval Steam Turbine Co. in Forest Park, Ill., and the newlyweds will make their home there after a honeymoon in the south.

Bengals Beat GCHS, Grab Conference Net Lead

Edwardsville high school's varsity tennis squad grabbed the lead in the Southwestern conference net race Thursday afternoon in Edwardsville with a 3-2 victory over Granite City.

The Bengals played their season's record to 3-0, while Dick Harmon's Warriors dropped their first meet of the year and are now 2-1 in the SWC.

Granite City's No. 2 and No. 3 singles representatives scored relatively easy victories, and the closeness of the remaining singles and doubles matches prompted Harmon to predict a GCHS victory when Edwardsville played here on April 27.

Harmon was especially pleased with the play of Bill Logan in the singles. "He played great tennis—could have beaten me anytime," remarked Harmon on Logan's 6-0, 6-1 victory against the Bengals' K. Blackmore.

Harmon also felt that GCHS can engineer at least a tie for the conference championship if the Red and Black squad is successful in its second meeting with the Tigers.

The two schools took turns about defeating each other last season, beat everybody else in the conference and ended the season sharing the SWC crown.

Thursdays' results: No. 1 singles—Tom Lyons (E) defeated Mike Barnes (G), 7-5, 7-5.

No. 2 singles—Bill Logan (G) defeated K. Blackmore (E) 6-0, 6-1.

No. 3 singles—Keith Veizer (G) defeated Karl Wetzel (E) 6-4, 6-2.

No. 1 doubles—Dave Posa and Noel Lane (E) defeated Mike Prusak and Virgil Kirksey (G) 6-2, 3-6, 6-3.

No. 2 doubles—Gerald Blase and David Helm (E) defeated Terry Rusick and Dave Rousseau (G) 6-2, 3-6, 6-1.

The Warriors play at Country Day school in St. Louis at 4 p.m. today.

Comanche Cindermen Deal Warriors 3rd Loss; Thurau Scores 13 Points

Ross Rosenhals' GCHS cinder-men continued to improve tonight, as the Warriors finished behind Cahokia in a dual meet Thursday afternoon on the Comanche layout, 69-49. It was the third loss in three dual meets this season for Granite City.

Most times and distance were well off area records, but Granite City's Harry Thurau cleared the bar at 60 in the high jump, some 2 1/2 inches short of the Southwestern conference mark. Thurau led all GCHS point producers in the meet with 13, as he added a first-place finish in the 180-yard low hurdles and was second in the high hurdles.

The Comanches claimed three multiple winners, Claude Gardner being named in both dual events, Bob Browning won both weight events and teammate Claude Hickman added victories in the 880-yard and mile runs and the broad jump.

Win Both Relays
The Warriors won both relay events, and individual first-place honors went to Richard Love in the 440 and John Grohski in the pole vault. Grohski has yet to be defeated in his specialty, although he cleared only 10-3 Thursday.

Bob Summers was second in the 220 and third in the 100.

Thursdays' results: 100—Gardner (C) 10.8; 220—Gardner (C) 24.0; 440—Love (G) 57.2; 880—Hickman (C) 2:07.0; mile—Hickman (C) 4:55.0; 880-yard relay—Granite City (Bob Summers, Frank Knight, John Allen and Larry Melton), 1:41.0; mile relay—Granite City (Larry Whitell, Al Wilson, John Allen and John Grohski), 3:55.0.

Rusty's of Wood River cut Bowland's Schiltz's second-place lead over Ripley Pines of O'Fallon to 2 1/2 games Saturday night at Belleville with a 2-1 win in the SIBA Classic League.

The Alton Falstaffs, although they lost their first game of their third consecutive SIBA title, the squad leads Schiltz by seven games with only one week of the regular season remaining.

Host Ripley won 2-1 over East Alton, and East St. Louis took the odd game from Collinsville.

Schiltz totaled 2965 paces by Jim Vrenicks 641. Other Schiltz players were Max Muehl 568, Jim Berry 583, Nick Lombardi 568 and George Wolfe 534.

GCHS Sophs Win 2, Improve Baseball Record To 4-0

Granite City high school's unbeaten sophomore baseball squad added victories Thursday and Friday in the fifth inning of Madison as the Warriors won their fourth straight game of the young baseball season, defeating the Trojans 10-1.

The game, arranged hurriedly Friday morning by Coaches Joe Fedora and Earl McClanahan after Madison had been rained out of a Thursday diamond date with Cahokia, was an even battle for three innings.

Granite City scored once in the first frame, and Madison tied it up in the third when Warren Starter Joe Holder pitched home, and then gave way to Mike Grivall, who surrendered the Redmen's final run in the fourth.

Holder, experiencing control trouble, pitched a wild pitch. But Granite City rallied twice in the fourth and began to pound Madison. Hurler Dan Trotsch pitched a shutout in the fifth. Roy Koberra relieved Trotsch in the fifth, pitched a shutout in the sixth, and then gave way to Mike Grivall, who surrendered the Redmen's final run in the seventh.

player of labor to move into the St. Louis area since world war II. A. O. Smith would not be here if Granite City Steel had not been able to supply a large tonnage of hot rolled sheets.

Attract New Industry

"Like all of us, we want to see more A. O. Smith's. We shop in a 10-state area but St. Louis is our most important single market. We think its ability to attract new manufacturers is strengthened by the presence of an expanding source of steel. We wanted to be sure that you knew what was going on over here."

"In closing, I'd like to make one other point. This side of the river used to have a pretty sour reputation for high construction costs. A few years ago, a group of building trades leaders, contractors, and industry people set out to lick that particular problem. Their success in increasing the productivity of East Side construction labor has been widely publicized."

"We have received only good reports from the Koppers Co., Inc., the general contractors on this blast furnace job, and from the sub-contractors. There is no longer any doubt that East Side construction labor is competitive with labor in any big industrial district in the United States."

18 Stories High The new furnace is 215½ feet high or about the same as an 18-story building. It has a 28-foot hearth diameter and can produce and apply approximately 2000 tons of pig iron a day while consuming more than 5500 tons of coke, limestone and other raw materials.

The furnace and its contents put a load of about 20,000,000 pounds on its foundation. The molten iron will be tapped into 200-ton capacity ladles and moved along a mile of railroad track to Granite City Steel's open hearth furnaces. There the iron is combined with scrap steel and other materials and refined until it becomes steel.

Smelting of iron into molten pig iron in the 3000-degree heat of a blast furnace is the basic first step for the steel-making and steel-using industries.

The new blast furnace is the only one scheduled to be built in this year in the United States. It replaces a blast furnace built in the 1920s that has been at full capacity, and its operation is expected to increase employment at the Blast Furnace Department. No change in the employment figure at the main plant is anticipated at present. There, six of seven open hearth steel-making furnaces are in operation, with the seventh shut down for repairs.

Started Late In 1959 Construction of the new blast furnace was started in October, 1959. The large shell was built off site, and then the old blast furnace was razed and the new structure moved onto its reinforced foundation through the use of steel rollers. This method minimized the time for limiting production at the Blast Furnace Department to one furnace.

The new furnace is expected to be in operation continuously for five years before a shutdown for relining.

Davis For 7-Member Levee District Board

Mayor Davis said last week he will support proposed legislation to increase membership on the Levee District board of trustees to assure representation from Madison county.

The mayor told the Press-Record he is sending telegrams to Lloyd "Curly" Harris and other local area legislators urging their support of a bill which would add two members to the levee board and require three of the enlarged seven-member board to be residents of the Madison county area of the district.

"I feel that's the best way for us to get adequate representation on the levee board," the mayor added.

At present there are five members, all from St. Clair county, and a battle has developed among the members over the presidency and control of the board.

Bi-County Airport Study Should Not Be Delayed Any Longer

Everyone seems to agree that the Madison-Si. Clair county area is the most logical site for a second major airport. That is fine, but what is really needed is action before all the large tracts of currently available land are gone. Then it's too late—again.

The proposal made some months ago for a jointly-financed \$20,000 preliminary site study should be carried out without further delay. The cost is certainly a minor item in relation to its value.

Funds for the proposed site study would come equally from four sources: \$5000 from Madison county, \$5000 from Si. Clair county, \$5000 from all the bi-county cities, and \$5000 from the bi-county Chambers of Commerce.

This is a particularly significant arrangement since such a locally-sponsored survey would be much more concerned with growth of the Illinois Metropolitan Area than if it were made by outside interests, as has been intimated. A bi-county sponsored study can integrate other area plans and proposals, including those for zoning, highways, recreation, industrial development and new subdivisions.

The cities of Madison and Venice already have pledged their share toward the \$20,000. It behooves the other cities, county boards and Chambers to assume their share promptly.

The reason why people often lose money to swindlers is that many Americans want to get something for nothing.

Another Revision In Daylight Time Given Committee Approval

Possible revision of the present daylight saving time law has arisen on another front. The Illinois House Agriculture Committee has voted 21-3 to recommend that October be trimmed from the six-month "fast time" plan now in effect.

There are thousands of people in this area and millions in the state who like daylight time just the way it is. In fact, 95% of the Illinois population already was following the six-month time change by the time the legislature enacted a uniform law. We add our voice to those urging retention of the existing time law.

Identical Precincts Would Cut Election Costs, Inconvenience

The difference in polls for the Granite City township and justice district elections this month proved confusing to voters, and county officials estimate that over \$2000 was expended unnecessarily.

All other areas of Madison county shared the township justice polls for the justice of the peace and constable election, with usually no rent paid and \$10 added to the pay of township judges doing double duty. In Granite City, 11 of the polls coincided but \$1 did not—14 being used only for city-township balloting and 17 for JP-constable voting. And all JP polls here cost \$125—\$25 each for five judges—with rent amounting to another \$20 in most cases.

The latest election again emphasizes the need for action by the city and county to establish identical precincts and polling places. Four good reasons that come to mind are the cost, confusion, inconvenience and the many votes not cast because the polls were separate.

SIU Report Shows This Area Is Ideal For New Industries

A survey by Dr. Mary Megee of Southern Illinois University, spotlighting this area's many advantages, makes interesting reading for Quad-Cityans and also should be of interest to industries planning new locations.

The industrial research analyst and geographer singled out for major attention the vast, level and adequately flood-protected land available here for plant sites, and discussed the important related effect of the local port development and ideal utility and transportation facilities. Her finding that land costs here are lower than in other areas is worthy of note, and her report also touched on enlightened local labor-management relations and nearby supplies of natural resources, such as high-grade iron ore.

There has been an awareness of many of these points at the local level, but an authoritative study of this type may prove helpful in convincing the rest of the nation that the Illinois Metropolitan Area's natural advantages are not merely the figment of some civic promoter's active imagination. We are confident that this region's potential is real, not just wishful thinking, and the postwar growth that has already occurred here bears this out. In this connection it will be important to complete successfully the current effort to establish county zoning, as suggested in the SIU report.

Local Libraries Open New Worlds To Regular Readers

Get a library card and expand your reading. This is sound advice any time of the year, and it is especially timely during National Library Week, being observed through Saturday, April 22.

There is something to be said for learning about life first-hand, for theory often differs from actual practice. But the value of broad knowledge and insight, as afforded by reading, is inestimable. Broader horizons, new vistas of enlightenment and entertainment, await all inside the library doors.

Special displays and programs are being developed at local libraries for this week, but we recommend frequent visits throughout the year in order to take advantage of the large number of volumes available on virtually every subject. There is a wealth of satisfaction which can be had at the libraries, and a world of truth in the Library Week theme, "For a richer, fuller life... read."

Disability Tax On Workers, Firms Might Duplicate Cost, Coverage

Proposed state legislation on "disability unemployment compensation" could prove costly to employees and employers alike and would duplicate the financial protection already existing at many business firms.

The plan would be financed by an initial tax of 3.5%—1.75% paid by the worker and 1.75% by his company. Cost to each employee has been estimated at \$1.50 yearly, with another \$52.50 paid by the firm.

This special tax might be justified if there was an unmet need for benefits to persons acquiring disability not connected with their work. But a very high percentage of employees already is protected by private plans providing a percentage of the base pay during periods of absence due to illness or injury.

As a mandatory disability tax is voted, net effect probably will be cancellation of present programs, some of which may be more advantageous than the replacement. Intent of the new bill is good, but it should omit those already adequately covered.

CD Unit Maps Plans For National Alert

The local civil defense unit is preparing plans for its participation in the national alert to be held from 10 a.m. to 5 p.m. April 28 and April 29.

Mrs. Valerie Evenden, deputy director, said the emergency control center to be at the Egyptian Radio Club on Chouteau Slough road will be used to direct operations. Code name is OPAL-61.

Contact will be kept with county, area and state units, and umpires will be on the job to grade the operations, and report to the Chicago CD agency on action of the group.

Umpires will be George Eubank, William Piel and Luther Rudder, who recently attended a briefing session at Springfield.

During the drill, radio and television stations will be silent for 30 minutes and local plant whistles will be sounded at 3 p.m. on the days.

Inspections will be made to public and parochial schools to determine whether the alert is being acknowledged.

Directors of service agencies will be on call at the station if needed. They include the restaurant, auxiliary police, medical and communication squads.

Mrs. Evenden will be in charge of the operations and Victor Koenig, assistant director, will coordinate operations at Madison county headquarters. Another deputy director, Ted Todoff, will be on hand at the County control office at Swansea, CD Director George W. Schumacher announced.

Edwardville Road Crash
The head-on crash earlier Saturday took place on a four-lane section of Edwardville road about 300 feet south of the 20th street intersection. Both cars sustained extensive front end damage, and both drivers were rushed to St. Elizabeth Hospital in ambulances. They had been alone in the cars.

Mr. Burnett was driving north and Pvt. Chavez was going south. Police said the Chavez car had crossed the center line of the highway and was in the northbound driving lane. Speed was not determined, but the impact was severe, pushing the oncoming car into the front seats.

Deputy Coroner Henry Pieper, who will hold an inquest, said Burnett died of a crushed chest and internal injuries. Pieper said the death of Chavez apparently was caused by a skull fracture and internal injuries.

Both men were extricated from the wreckage.

Father Of Four
Burnett, a veteran of world war II, was a Granite City resident for 35 years and was born at Sapulpa, Okla.

Levee Faction Seeks Ouster of Appointees

The majority faction of the East Side Levee and Sanitary District board of trustees has called a meeting of the board at 10 a.m. tomorrow for the purpose of "discharging the treasurer and appointees" of the levee board.

Currently serving in the positions by appointment of levee board President Dan E. Costello are Madison Mayor Stephen Maestas, treasurer, and Fred P. Schuman and James Gray, attorneys.

Costello, who heads the levee board minority faction, could not be reached for comment this morning, but if he and George Duff, other member of the minority on the five-man board, follow past patterns, they will attend the meeting and Costello will rule that the action taken, if any, is illegal since he, as board president, has the sole right to call a special meeting.

He is survived by his wife, Alana; three sons, Gregory Lee, James Edward and Jeffrey Lynn; a daughter, Miss Sandra Jean Burnett; three brothers, Jesse Jr. and Carroll Burnett, both of Granite City, and Kenneth Burnett, Pittsburgh, Pa.; a sister, Mrs. Leonard (Caroline) LaBarge, Granite City; his parents, Mr. and Mrs. Joseph Burnett Sr., Granite City, and his grandparents, Mr. and Mrs. George Sherrill, Vienna, Mo.

Funeral arrangements are given in the obituary column.

Pvt. Chavez, unmarried, was the son of Mrs. Julia Chavez, 315 East Hamilton street, Bryan, Ohio. He entered the regular army on Feb. 25, 1960, for a three-year enlistment.

He served at Ft. Knox, Ky., and Ft. Leonard Wood, Mo., before being transferred here.

Prisoner Captured

Clyde Lowry, 27, Madison, was arrested in Laredo, Tex., on the Mexican border last week after escaping from Menard penitentiary four days earlier, it was announced Thursday. Scheduled for release this year on a one-to-three-year robbery term, he is being returned to Illinois and will face charges of auto theft, unlawful flight and interstate transportation of a stolen car.

The majority faction, including Lawrence T. Tojar, John E. Molla and Hennessy, do not recognize Costello as president. Tojar claims the board president is the result of a second election held early this year after Costello had been elected at an earlier meeting attended by only himself and Duff.

Just who is the legally elected president of the board is a matter of pending court litigation.

A spokesman for the three-man majority said this morning that a bill introduced in the state legislature by Sen. James Monroe which would increase membership on the levee district board of trustees from five to seven will be the subject of a hearing before a senate committee at 1 p.m. Thursday in Springfield.

The hearing was requested by the levee board's majority faction, the spokesman said. Tomorrow's special levee board meeting will be held in the levee district's offices at 2922 McCasland avenue, East St. Louis.

In other developments connected with the feud among the trustees, Justice of the Peace Edward Horrian has announced that a "threat to kill" charge brought by Costello against Hennessy has been dismissed, "by mutual agreement."

Costello filed the charges with JP Barney Johnston, but the case went before Horrian on a charge of venue. The charges were the outgrowth of a report that Costello had been heard about indirectly.

firm of Hellmuth, Obata and Kassabaum, will be part of the organizing group and will be guided by the participant's recommendations.

Maremont, a leading art patron whose own collection of painting and sculpture is regarded as one of the nation's finest, said he hoped for "meaty ideas" and said he would not expect "an airy, fairy thing... that produces no enlightenment to students or planners."

Maremont said he envisioned the creation of an "out of doors gallery at Edwardville, where sculpture and visually aesthetic things will become part of the whole campus." But he added that the seminar's larger purpose will be an elaboration of viewpoints from prominent figures in art, architecture and education, "to help us attain a campus that people will drive hundreds of miles to see."

Three conference participants already set are Buckminster Fuller, Geodesic dome inventor and research professor of design at SUI; Lewis Mumford, noted writer on city planning, and Hideo Sasaki, Harvard University landscape architect. Others will be enlisted later. Maremont said some guests would be "live" others would be involved through the medium of taped and film interviews relating to the Edwardville plan.

Inclusion of such features as sculptures, painting and ceramic panels and murals throughout the campus landscape and interiors can be a part of the master plan. The space called the Edwardville campus will be created by its own needs," Cohen said, and conference participants will be set free to help plan a total education environment based on those needs.

Today's luncheon was attended by Madison-St. Clair county municipal officials, and Maremont asked them to proclaim a "University Weekend" during the June seminar, and to assist in efforts to bring school children and area residents to the Edwardville campus has so far been brilliantly supported by the people of this region. We want to bring this new concept of environmental planning to them, so they can understand and participate in the development of an international landmark," he said.

Nestled within a growing industrial-residential complex, the Edwardville campus is expected to reach an enrollment of 10,000 day and night students within 10 years. Since the Quad-Cities, East St. Louis, Alton, Belleville and Collinsville all are within a 20-mile radius, some 14,000 of those students will probably attend as commuters. The site, covering rolling hills, wooded and open land near the overcrossing the Mississippi and Missouri river confluence, is ideally suited, as Dr. Mumford said, to its role as a "cultural and educational core in an exploding metropolis."

Maremont said he hoped any acquisitions of art as a result of the program would come through private donations. Initial construction of the campus itself is slated through an expected \$25,000,000 portion of Illinois' \$195,000 Universities Bond Issue fund.

\$3450 Damage At House As Wind Hampers Firemen

Fire caused \$3450 damage at 10:25 a.m. Sunday to the two-story frame home of Charles Lewis, 1626 Fifth street, Madison. Firemen fought high winds and the fire for two hours to keep the blaze from spreading to adjacent houses.

Originating in the basement due to a defective furnace, the fire broke through to the ground floor while the family was away and then moved up the walls to the top floor. The back portion of the house was gutted, with the loss estimated at \$2500 to the building and \$900 to contents.

Madison firemen went to the home of C. Y. Warren, 1112 Greenwood street, at 9:40 a.m. Saturday, reporting \$300 damage to a frame wall. Rubbish had caught fire in a box on the back porch.

Winds estimated at over 40 miles an hour during gusts buffeted the Quad-Cities all day yesterday and continued this morning. A slight snowfall also occurred this morning.

Stricter Entrance Requirements

Good High School Grades Needed To Enter U. of I.

Due to increasing crowding of colleges, the University of Illinois has set up rules limiting the entrance eligibility of high school graduates, Lawrence McCauley, Granite City high school principal, was advised Friday.

Basic effect will be that students will need to attain outstanding grades while in high school to be sure of qualifying for the university. Those with lower grades must register later in the year, when there is a greater chance that the enrollment already will be filled.

New rules just announced by the university apply to both new and transfer students, he noted.

The plan for progressive admission of undergraduate students to the University of Illinois and its undergraduate colleges and institutes was explained to McCauley as follows:

Effective This Year

"Because available facilities are inadequate to provide for all qualified applicants, and to utilize the university's capacity most effectively, the University will issue permits to enter the University of Illinois at Urbana and at Chicago Undergraduate Division in accordance with precedent outlined, effective beginning with applicants for admission in September 1961."

Priorities for action on applications for admission to the fall semester:

1. New freshmen who are residents of Illinois and who rank in the highest 25% of their high school class.
2. New freshmen who are non-residents of Illinois and who rank in the highest 15% of their high school class.
3. Transfer students who are residents of Illinois with not less than a 3.75 average in their college work in terms of the grading system of the University of Illinois.
4. Transfer students who are non-residents of Illinois with not less than a 4.0 average in their college work in terms of the grading system of the University of Illinois.

Second Priority Period

Period II, from April 1 through April 30:

1. New freshmen who are residents of Illinois and who rank in the highest 50% of their high school class.
2. New freshmen who are non-residents of Illinois and who rank in the highest 25% of their high school class.
3. Transfer students who are residents of Illinois with not less than a 3.5 average in their college work in terms of the grading system of the University of Illinois.
4. Transfer students who are non-residents of Illinois with not less than a 3.75 average in their college work.

Test Scores Acceptable

The university said that wherever rank in high school class is referred to as a basis for establishing priority of admission, an applicant may offer evidence of scholastic ability in

35 County Taverns, Clubs Without '61 Liquor Licenses

County plans for a crackdown on taverns in unincorporated areas that have failed to apply for 1961 county retail liquor permits were announced last week at Edwardsville by County Liquor Commissioner Gus Haller. He said 35 taverns or clubs in operation the previous calendar year are delinquent in obtaining the 1961 county licenses.

A decision was made by the county liquor license committee that if the delinquent tavern operators do not submit their applications and the \$300 annual license fee by the committee's next meeting on Thursday (April 20), the names would be turned over to the sheriff with instructions to close the taverns.

12 In Local Area
Of the 35 delinquent taverns, 12 are in the area surrounding the Quad-Cities. It was pointed out that the operators have had 2 1/2 months in which to submit their applications.

Some taverns, committee members said, operated in 1960 but may have closed down since the first of January, and a survey is to be made. For the 1960 calendar year, 154 retail liquor permits were issued to tavern or club applicants in unincorporated areas of the county, but some have closed their doors and there also was a number of duplications where taverns changed hands and two licenses were issued for the year for the same locations.

To date, 308 county liquor licenses have been issued for 1961 at the annual fee of \$300, and a cursory check of places operated last year showed 35 taverns or clubs outside corporate limits of cities still have not applied for a current license, the committee reported.

Those in the Quad-Cities are listed as delinquent following the name of the establishment, its location and the name of the last holder of the license:

Skippy's tavern, 2001 Hildebrand, Madison. Steve Caskey, 2204 S. Central, Edwardsville.
Orchid Lounge, 2001 Hildebrand, Madison. Steve Caskey, 2204 S. Central, Edwardsville.
Jordan T. Ravoff, 2001 Hildebrand, Madison. Steve Caskey, 2204 S. Central, Edwardsville.
2001 Terry street, Eagle Park Acres, Harry Sandberg, Hunting and Fishing Club, Rural Route One, Edna, Vaught. Bob's Curve Inn, 2900 Missouri avenue, Robert Osborne, Zamaroni's tavern, 3967 Lake street, Clara Ziegler, 5060 Lake street, Grace Carithers, The Shamrock, 4706 Lake drive, 3220 S. Central, Edwardsville.
4362 Lake drive, Walter Hertz, The Garden Spot, 5280 Namecki road, Stephen R. Harris, Chuck's tavern, 4001 Kaneberg lane, Charles A. Parnley, The White Swan, 4800 Namecki road, Elmer Lockhart.

Mayor Plans Student

Civics Programs

Recently selected Mayor Leonard E. Davis told members of the Daybreak Optimist Club Saturday morning of a plan to better inform local high school students as to the function and operation of city government.

Mayor Davis said the plan could build a better informed and more responsible citizenry. He said the plan would supplement a "student in government day" which has been carried out in recent years and which includes the assuming of city offices for one day by high school students in order to better acquaint them with the operations of local government.

The mayor stressed that it is essential for more citizens to go to the polls, especially in city elections.

Following the mayor's remarks, Optimist Jerry Walters spoke on the program of the local public library board, and said a need exists to expand library facilities in view of the new university facilities planned in a near future.

The board of directors of the Daybreak Optimist Club met Wednesday evening with Don Trimnell at 2241 Woodlawn avenue. He has been invited to attend.
